

Who are we?

We are a group of people who have come together to bring America back to what it was originally intended to be. We come from all walks of life, different ages, different professions, different racial backgrounds, different religions, etc. We have come together with a common goal of uniting the people for a just cause.

As of March 2010, we are now the only "lawful" government in America and are slowly re-filling all of the positions vacant since 1861 in a peaceful and lawful manner.

Why are we doing this?

It doesn't take anyone to be a genius to recognize that there is something seriously wrong with what is going on in our state capitol and in Washington DC.

All across America people are starting to wake up and realize that their government has been stolen by big corporations that do not have the best interests of "we the people" in mind. One by one, all of our freedoms are being taken away, and the United States is becoming more of a police state daily.

How can you help?

We are actively seeking people who are willing to step forward and help take back what is lawfully ours. Your level of involvement is entirely up to you.

-Are you up to the challenge?

Facts you probably don't know:

- Washington D.C. was deeded to the International Monetary Fund by the Breton Woods Agreement.
- The IRS is not a U.S. Government Agency. It is an Agency of the IMF.
- The IMF is an Agency of the UN.
- The U.S. has not had a functioning de jure Treasury since 1921.
- There are no judicial courts or judges in America and there has not been since Amendment XI. Judges do not enforce Statutes and Codes. Executive Administrators enforce Statutes and codes.
- You own no property; slaves can't own property. Read the Deed to the property that you think is yours. You are listed as a Tenant.
- You cannot use the Constitution to defend yourself because you are not a party to it.
- We are slaves and own absolutely nothing, not even our *children*.
- It is not the duty of the police to protect you. Their job is to protect the Corporation and arrest code breakers.
- Everything in the "United States" is for sale: roads, bridges, schools, hospitals, water, prisons, airports, etc.
- The FCC, CIA, FBI, NASA and all of the other alphabet gangs were never a part of the United States government. Even though the "US government" held shares of stock in the various Agencies.
- A 1040 form is for tribute paid to Britain.

Background History:

In 1783, America had won its war with Britain and became a country, and Americans were then free and Sovereign people. Each state was a separate republic, united by a small central government.

In 1860, Congress adjourned *Sine Die*, and never returned. President Lincoln declared Martial Law for the duration of the Civil War 1861-1865, but was assassinated before it could be lifted. Thus, we are technically still under martial law.

In 1871, with a massive debt due to the Civil War, America declared bankruptcy and was sold to investors. The existing government was mothballed, and a privately-owned corporation quietly took its place. Most people didn't even notice. Washington, DC was created as a foreign country/corporation, and became the headquarters of the corporate government. Congress returned but was now working for the corporation.

In 1913, the Federal Reserve Act was implemented, and America had no more of its own money. All money was then created and owned by the Federal Reserve (a privately held bank), and from then on, we have had to borrow our own money, at interest.

To pay back the interest on the monetary loans, the gold reserves were used. By 1933 all gold was gone, and the gold-backed currency was no more. All currency from then on became "Federal Reserve Notes" instead of actual money.

With no backing of the currency, the national debt skyrocketed, and has been increasing exponentially ever since. It is now to a point where it is literally impossible to ever pay down the national debt.

Based on Common Law:

The original Constitution created a government that was based on Common Law, this is the law we will be returning to. The power in Common Law rests with the people instead of the government.

Government of the people, by the people, for the people, shall not perish from the Earth.

-Abraham Lincoln

Living under Common Law is going to be a new experience for all of us, since it hasn't been in effect for 150 years. It will be an exciting time and will take some getting used to. The simplest explanation of Common Law is that if there is no injured party, there is no crime.

Some of the highlights:

- No income tax
- No property tax
- No drug laws
- No license required to drive a car
- No license required for a car
- Tax on imports
- Emphasis on local businesses
- Emphasis on natural health care
- Emphasis on local farms
- Right to keep and bear arms
- No credit ratings
- Bank loans that are affordable
- Cheap (or free) Electricity
- All men (and women) are equal

As you can see, this is a drastic change from everything we've all been brought up to believe in. The emphasis is going to be on personal responsibility instead of placing all the responsibility on the government.

Positions in Government:

Because Wisconsin is governed by Common Law, the power rests with the people instead of the government. This requires the people to participate in the decision-making process. It is the people that are rebuilding our government, so let's make it something we can be proud of! Since the government offices have been vacant for 150 years, we have a lot of openings. All currently filled positions are "interim", meaning that the people will vote on who will fill those seats once all the initial work is done.

Personal Government:

Common Law believes in self-governance first and foremost, but along with greater freedoms comes greater responsibilities. Just because you are allowed to do things that have been "illegal" for your entire lifetime does not mean you can do anything you want; you must respect the freedoms of other people also.

County Government:

The next level in government is the county level. The ultimate authority at the County Level is the Grand Jury, but there are many other offices, similar to what are currently in place.

State Government:

Above the county government is the state. The state will have a governor, along with several other positions. Also at the level will be the state Grand Jury and representatives to the national government.

National Government:

At the national level, there are also many positions, such as office of the president, congress, etc.

Did you know?

1213 The Pope and Vatican created the Treaty of Verona claiming ownership of all lands and souls in the world

1215 The Magna Carta was created to counter the Treaty of Verona

1604 The Virginia Company, a French chartered Crown-owned company was created

1620 The Virginia Company granted a settlement of American land to the crew of the Mayflower to colonize

1776 The Declaration of Independence was created and given notice to the international community.

1777 Articles of Confederation were created.

1783 The Virginia Company changed its name to United States of America

1789 Founders met at Constitution Hall in Philadelphia, Pennsylvania and created the Federal Constitution creating a more perfect union. A reporter asked Ben Franklin "what form of government have you brought upon us?" Ben Franklin responded, "A Republic, if you can keep it." Robert E. Lee standing behind Ben Franklin said, "And if you cannot keep it, you will end up with a Democracy." This was the beginning of the Great American Experiment to see if the people can self-govern. From this day forward, the Vatican, London, and the Crown worked to subvert and take back the colonies.

1812 British soldiers burn our nation's capitol to eliminate the original thirteenth amendment Titles of Nobilities Act that forbids any nobility from holding public office or trust. The British lost the battle and could not take the colonies. The Crown decided to take the colonies from within by stealth. British Accreditation Registry (B.A.R.) card holding lawyers with an oath given to Britain (allegiance to a foreign power) were instructed to subvert the American government and destroy it from within.

1861 A lawyer, Abraham Lincoln, in violation of the 13th Amendment (the Title of Nobilities Act) became President on March 4th. On March 14th, eleven southern states walked out of Congress without adjourning and setting a date to return. This is Sine Die. This is the day the Republican form of Constitutional government became vacant. After this date America had no government and all government actions are defacto and fraud.

1863 Abraham Lincoln issued General Order 100 stating that "Until the people return to self-governing, the military is to run the country." America came to be governed under the Lieber Code (Military Law, Martial Law).

1871 District of Columbia Organic Act of 1871 established Washington DC as a corporation to provide 19 essential services to the American people. The Constitution for the united States was changed to THE CONSTITUTION FOR THE UNITED STATES.

1928 The War Department issued Field Manual 2000-25 on Citizenship and how to return to a Republican form of Constitutional government from a Democracy. General Douglas MacArthur studied under this manual.

1932 Franklin Delano Roosevelt orders the Training Manual 2000-25 and all negative references to a Democracy destroyed with no explanation.

1945 General Douglas MacArthur created Project Bluebook where he handpicked a few of the brightest in the Special Forces and trained them in nation-building and the Constitution. The men who participated in Project Bluebook formed the Restore America Plan.

2009 Those who studied under General Douglas MacArthur and the Restore America Plan initiated the resettling of counties and states via original jurisdiction assemblies. The Michigan General Jural Assembly (MGJA) adjourned the Congress Sine Die March 14, 1861 session, brought it forward to 2010, and scheduled the next meetings proper each month since today's interim status.

2011 Notice was given to office of POTUS, Michigan governor, et-al and remains unrebutted through today. December 2011 MGJA issued 21 Requisitions to Office of POTUS, Joint Chiefs of Staff, Pentagon, and Secretary of State.

2015 All governors, headed to a conference, were diverted by the military and told the de Jure government was Assembling and to leave them alone.

2018 MGJA created a school named National Assembly to teach people from other states how to duplicate what Michigan has done.

January 2023 Two Wisconsinites assembled under God's guidance and mentorship from the Michigan Assembly to begin resettling Wisconsin. We are growing every week! Come join us and be active to peacefully Restore our Wisconsin Republic.
